

ENVIRONMENTAL POLICY

The General Management, being aware of the importance of continuously improving the protection of environment related to the activities, products and services offered by Sepiol, S.A., has established as an objective the implementation and maintenance of an environmental management system based on the following principles:

- ❑ **LEADERSHIP AND COMMITMENT OF THE GENERAL MANAGEMENT**, providing all necessary resources to ensure the correct functioning and improvement of our environmental management system.
- ❑ **FULLFILLMENT OF LEGAL REQUIREMENTS**, and other applicable norms and provisions
- ❑ **CONTINUOUS IMPROVEMENT** with the establishment of objectives and achievements to prevent all occupational and environmental risks and guarantee health and safety of consumers.
- ❑ **MINIMIZATION OF ENVIRONMENTAL IMPACT**, with technological improvements that allow us to reduce water and energy consumption, powder emissions, greenhouse gases (GHG) and noise levels.
- ❑ **WASTE MANAGEMENT**, minimizing production of residues and optimize recycling.

The achievement of this primary objective will be the result of the joint work of all Sepiol, S.A. personnel.
